Remark:

- All applications listed here are only available for 2wd model unless specified otherwise in the listing.
- With a Dynamic Pro Sport kit, the vehicle ride height can be lowered about 50mm – 100mm from factory (varies per application). For the SUPER LOW version kit, it enables to offer an additional 20mm ~ 30mm drop over the Dynamic Pro Sport kit.

- The symbol "®" means this kit is supplied with a pair of remote adjuster cables.
- The symbol "●" means the rear sustech upside-down strut damper adjuster comes with pillow ball instead of adaptors.
